

GEORGE HE

APALSA SPONSORSHIP CHAIR

My Experience with APALSA

This year has been one of mayhem, frantic last-minute skimming through Quimbee, and thinking of new ways to intercept the free food during lunch events. The entire legal profession felt like a weird setup: where students with aspirations to better themselves and their communities are shoved through a blender and puréed with assorted legal cases, blue book rules, and maybe a splash of hard liquor.

But throughout 1L, the support and resources found in the Harvard community, and especially in APALSA, has helped me to digest the Harvard Law smoothie (and keep it down).

Through APALSA, I've been able to find a community that shares many of the same quirks, challenges, and aspirations as me, and I'm here to make sure that the next generation of legal students can find their support in the same community.

Committee Goals

1. Establish more corporate relationships for APALSA through a tiered sponsorship structure!
2. Publicize sponsorship opportunities!
Post sponsors & opportunities on the website
3. Strengthen existing corporate ties through career fairs, coordinating lunch talks
Coordinate smaller dinner/lunch events with firms for members to really get to know the attorneys and recruiters
4. Reach out to non-law-firm sponsors! Local businesses and other groups support our mission as well!
